RE: Exploration of East Ridge; Green Beetle Quarry

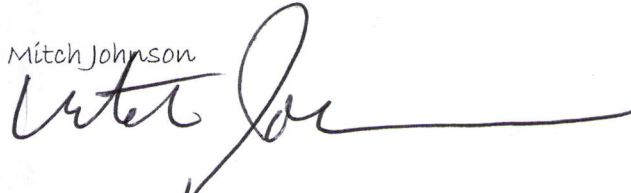

Dear Mr. Nelson,

We are interested in doing some exploration on the East Ridge of the Green Beetle Quarry. This would consist of taking an excavator up to the already disturbed area and doing some test holes.

If the stone is marketable, as we are sure it is, we will be changing our mining plan and reclaiming the Northwestern pit we are in now. We will be staying under the 5.0 acre small mine limit. We would like to start exploration as soon as possible.

Thank You,

Mitch Johnson
